

In reference to Docket # 98N-1038, "Ex - radiation in the production and handling of food" I demand that prominent labeling include "irradiation" or "irradiated" and the use of the radura symbol. Proposed ~~67811 199 MAY 25 1992 ms~~ such as "cold pasteurization" or "electronic pasteurization" are misleading and unacceptable. The absence of such a statement is misleading because irradiation destroys vitamins.

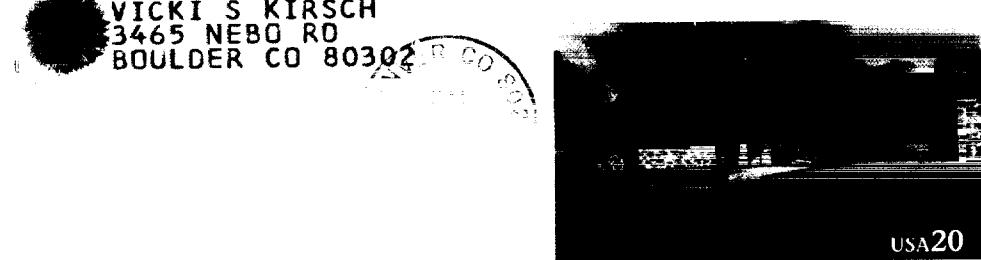

Please act responsibly.

Sincerely, Vicki Kisch
